

Task created,

Creating github account

Download and configuring Visual Studio Code

Create an Azure free account.

The screenshot shows the Microsoft Azure portal home page. The top navigation bar includes the Azure logo, a search bar, and the user's profile. The main content area is divided into several sections:

- Azure services:** A row of icons for various services: Create a resource, Subscriptions, SQL databases, Cost Management, Virtual machines, Azure Active Directory, Users, Monitor, Resource groups, and More services.
- Resources:** A table showing recent resources. The table has columns for Name, Type, and Last Viewed.
- Navigate:** A row of icons for Subscriptions, Resource groups, All resources, and Dashboard.
- Tools:** A row of icons for Microsoft Learn, Azure Monitor, Microsoft Defender for Cloud, and Cost Management.
- Useful links:** A row of links for Technical Documentation, Azure Services, and Recent Azure Updates.
- Azure mobile app:** Links to download the app on the App Store and Google Play.

Name	Type	Last Viewed
Azure subscription 1	Subscription	a few seconds ago
Ubuntu_group	Resource group	2 weeks ago
kiena_ssh_key	SSH key	2 weeks ago
NetworkWatcher_eastus	Network Watcher	2 weeks ago
NetworkWatcherRG	Resource group	2 weeks ago

Register an application with Azure Active Directory.

The screenshot shows the Microsoft Azure portal 'App registrations' page. The left sidebar contains a navigation menu with options like Overview, Preview features, Diagnose and solve problems, and Manage. The main content area shows a list of applications. A table displays the details of the 'Demo App'.

Display name	Application (client) ID	Created on	Certificates & secrets
Demo App	ac992738-7ef1-47e3-9dc-871795a374b3	8/4/2023	-

Microsoft Azure portal showing the "Demo App" configuration page. The page displays various settings including Display name, Application (client) ID, Object ID, Directory (tenant) ID, Supported account types, Client credentials, Redirect URIs, Application ID URI, and Managed application in L... The page also includes a "Get Started" section with a "Documentation" link and a "Build your application with the Microsoft identity platform" section with three sub-sections: "Call APIs", "Sign in users in 5 minutes", and "Configure for your organization".

Microsoft Azure portal showing the "Demo App | API permissions" configuration page. The page displays a table of configured permissions for the application, including "Dynamics CRM" and "Microsoft Graph". The "Dynamics CRM" permission is expanded, showing a list of permissions with checkboxes for "Delegated permissions" and "Application permissions". The "Microsoft Graph" permission is also expanded, showing a list of permissions with checkboxes for "Delegated permissions" and "Application permissions".

API / Permissions name	Type	Description	Admin consent required
Dynamics CRM (1)			
user_impersonation	Delegated	Access Common Data Service as organization users	No
Microsoft Graph (1)			
User.Read	Delegated	Sign in and read user profile	No
